GOODBYE SUMMER, HELLO AUTUMN!

SEPTEMBER 2022 | ISSUE 2

Howdy TEXAAN Membership,

I hope you all are having a great start to your fall semester! I am excited for everything that this semester is expected to bring us!

TEXAAN has been hard at work this summer-

- Conference 2023 planning is in full swing!
- We have revamped our website, have you seen it?
- Check us out on social media, we are rocking it!
- Have you attended a TEXAAN webinar yet? If not, you should!
- Engage your Region Chairs! They would love to hear from you.
- Stay tuned for information about a Mentorship program!

I know we have all had a busy summer, and most are looking forward to a “normal” fall semester. I believe most schools are returning to what their campuses looked like fall 2019, as much as they can. I think that we are still in a different normal than what we knew, but we can take what we have learned and continue to grow, improve, and learn. I know I speak for the entire Executive Board when I say that we are all here to help as a resource, a sounding board, someone to cheer you on, or virtually send you a hug in the hard times.

The 2023 Conference Committee is underway planning and making sure that everything is perfect for our 30th conference. I am excited to relay that registration is open for the conference now! You can also submit a presentation proposal now! If you have never presented before, this is a nice arena to present and gain feedback from others. As we come closer to the conference, be prepared to get involved at the conference! We will need many volunteers to help moderate sessions, help with check-in tables, and assist with other facets of the conference.

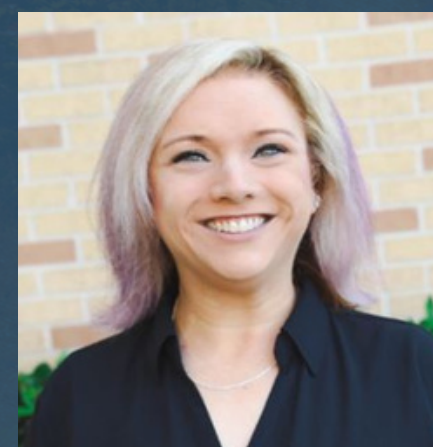

As we continue through this year, please be on the lookout for continued communication from us. We are continuing to improve TEXAAN’s image and membership through our website as we progress into the 30th year and this new decade! We are striving to increase communication through newsletters, social media, general emails, and so on. I ask that you please share this information with your campuses, get the TEXAAN name out there. Help us grow our organization into the biggest state organization possible.

If you ever have any questions, comments, concerns, good news- anything, I would love to hear it. Please know you can reach out to me at any time. Also, keep your eye out for more communication from me (and continued opportunities to become involved!).

I wish you all a fantastic fall semester!

Thank you,  
Casey Schumacher  
President, TEXAAN 2022-2023
